BRILLIANT WRITER NEW Y. M. C. A. NAMES NEW TICKET

Declares That Judge Harman Contractor Wilson, of This City, and McClellan Would Sweep Country Next Fall.

That charming and brilliant political writer, contributing so freely of his intimate knowledge of public affairs, to the Washington Post, over the nom de plume of "Savoyard," had in that paper of yesterday, a column review of the national situation from a Democratic standpoint, the caption of which was "Democracy in 1991."

The burden of "Savoyard's" contention is, that this is a Democratic year, if the St. Louis Convention will but meet the situation bravely, and avoid being led again into the pitfalis of agrarialism by the Bryan-Hearst combination.

The article is highly characteristic of this brilliant journalistic authority on American politics, and after pointing out the dangers, which lie along the way for Judge Parker, owing to the popular belief that his boom is too much the creation of former Senator David B. Hill, with whom he declares the party is not much in love at this time, he goes into the Middle West for the head of the ticket, and names the Hon Judson Harmon, of Cincinnati, former Attorney-General in the Cabinet of President Cleveland, with Mayor George B. McClellan, of New York, as his running mate.

There are a number of such persons who have not yet secured their licenses, and in order to avoid trouble and unnecessary expenses they are given this tip by Captain Lunningham to pay up to-day. Witcom Thacker, the fish dealer, was fined 85 for disobeying the ordinance about selling fish. He should not have solicited customers before the fudge were lidin drunks. "Chicken" Jones was one of them. He had been given all kinds of treatment and was considered on the road to recovery, but he fell by the wayside and went down again.

GOVERNOR AWAY.

Will Make Address to Fairfax

Veterans To-day.

Gov Montague left yesterday at noom for Washington and will to-day go over in Fairfax Courthouse and deliver an address before the Contederate Camp there. His excellency spent yesterday morning at the mansion with his secretary, Mr. Ritchie, disposing of his mail and preparing for his trip. He will yeturn here to-day. While in Northern Virginia, where his excellency has always been popular and strong, he will doubtless meet many of his political triends. It was his intention to spend last night in the Capital City. The Governor has a great many invitations to make addresses on various occasions both in and out of the State, but has had to decline a number of them, owing to the bress of official matters here. His services will be much in demand on the stomp this fail.

REPORTS OF Y.M.C.A.WORK

First Quarterly Meeting of State Executive Committee Held Last Night.

NEW RAILWAY DEPARTMENT

One to be Located at Monroe. Number of Changes Among the Secretaries.

The first quarterly meeting of the State executive committee of the Young Men's Christian Association of Virginia was held last night in the associaton building, Main and Sxth Streets, with the following members present; Messrs. J. Taylor Ellyson, Charles K. Willis, S. W. Huff, S. W. Travers and L. M. Williams, W. Reginald Walker. Mr. J. Calvin Moss, of Lynchburg, was elected a member of the committee, vice Mr. T. M. Terry, re-

signed.
Mr. Frank A. Brown, of Union Theological Seminary, was elected college secretary of the State committee.

State Secretary Coulter submitted his report for the quarter, which contained many interesting items. Mr. Coulter said

held in Richmond, March 3-6, was attended by more than four hundred delegates, and was the largest convention in the history of the work in Virginia. Worthy of special mention were the addresses of Rev. Cornelius Woelfkin, D. D., of Brooklyn, N. Y., and Mr. John R. Mott, foreign work secretary of the international committee.

FOREIGN WORK.

At the closing session of the State convention Mr. John R. Mott made an inspiring address on the need of Christian work for the young men of foreign lands, and asked for gifts towards the support of a pioneer secretary for Havana, Cuba. In response to his appeal \$550 was contributed.

RAILROAD WORK.

We are glad to report that the officials of the Southern Railway have made an appropriation for a department to be located at Monroe, division point, a few miles north of Lynchburg. The company has set aside a hotel, which will be thoroughly repaired and put in shape to meet the needs of the work.

STREET RAILWAY WORK.

The first work for employes of a street railway company in the South was opened at Richmond April 23d. In a building set aside for the association by the Virginia Passenger and Power department, several services were held on date named, participated in by association secretaries, local, State and international officers of the local association, the new department and officials of the Passenger and Power Company, Billiddings and officials of the Passenger and Power Company, M. Conversity of Virginia was let in New York yesterday to Mr. J. T. Wilson, of this city.

Mr. Wilson is in New York, and a telescram received yesterday at his offices the megatiations. An exceedingly interesting feature of the news is the statement that the proposed building is to cost \$50,000. The original proposition of the generous donor was that she would contribute \$40,000 for a building, and that the University should raise \$20,000 for an endowment fund. The later information is taken to mean that she has possibly increased the amount of her gift by \$20,000. Nothing definite can be learned as the short of the work upon the building will begin very shortly. The plans, which were drawn by Parrish & Shroeder, architects, of New York, call for a very handsome structure, which will be an ornament to the University. The building will be complete in eight or nine months.

The erection of the University Y. M. C. A. is made possible through the generosity of Mrs. William E. Dodge, of New York city. Shortly before the recent Y. M. C. A. convention in Richmond Mr. JoJhn R. Mott, the international secretary of the World's Student Federation, announced that Mrs. Dodge had

BUILDINGS AND BUILDING FUNDS. A third subscription of \$5,000 has been announced at Lynchburg towards their new building. Bifort is being made to secure five gifts of like amount before the general canvass is launched.

At Alexandria an offer has been made of \$1,000 towards a fund of \$10,000 for securing association property. Effort is to be made to secure one or two more gifts of \$1,000 each before canvass in a general way is made.

Gymnasium and bowling alleys completed at Petersburg and in use; cost about \$2,000, of which amount quite a large part has been secured.

It was announced at our State convention (though not made a part of our annual report, as the offer was made after close of our fiscal year) that Mrs. William E. Dodge had offered \$40,000 for a building for the association at the University of Virginia, and that her son and daughter had agreed to furnish same. This offer with the stipulation that the association raise \$20,000 for an endowment. We have assurance that a large proportion of this amount has been raised, and there is no doubt of securing the full \$20,000.

mond. Mr. Joahn R. Mott, the international secretary of the World's Student Federation, announced that Mrs. Dodge had offered \$40,000 for a building, with the condition that the University raise \$20,000 for an endowment. The offer was gladly accepted, and the \$20,000 is practically in hand. It was later stated that the son and daughters of Mrs. Dodge had agreed to furnish the entire building. the full \$20,000.

Young Business Men Take Charge of Powhatan Hotel To-day.

The Powhatan Hotel was yesterday leased to the Powhatan Company, the head of which is Mr. R. Edgar Priddy, for fifteen months, with the privilege of renewing the lease for a period of five years thereafter. The new management will take charge of the hostelry to-day. Mr. Edgar Allan, Jr., and Mr. Edgar Allan, Sr., special commissioner in chancery, yesterday formally turned over to the Powhatan Company the bar-room and fixtures, hotel furniture and register of guests under a lease made by order of the Chancery Court, which will expire September 1, 1905, but with the privilege of renewal for five years longer, at the option of the leasees. All the afternoon yesterday wagons were unloading stores at the hotel with which to stock the bar, prepare for the rathskeller to be established in connection with the hotel, and supply the larder of the hotel itself. It is the purpose and desire of the lessees to keep the hotel fully up to the standard of satisfaction attained under the management of Colonel George L. Peyton.

THE CAMERON SALE.

No Positive Information Can be Secured-May Close To-day.

Secured—May Close To-day.

Inquiries made yesterday failed to elicit any very definite responses concerning the sale of the Cameron and Cameron factories to the British-American Tobacco Company. Mr. Alexander Cameron was questioned concerning the matter, but declared that as yet no positive information has come to his hands.

The sale, as duly recorded at the time, was negotiated some weeks ago, and since that time the examination of books and accounts has been in progress. The confirmation of the sale was made Saturday, and the legal transfer, it is said, will go into effect to-day. The factory, it is understood, will close this morning. Within the early future some of the new officials will visit the city, make an inspection and decide as to the fate of the plant. Whether or not it will ever be opened again is a question. The 150 or more operatives will seek employment elsewhere. A number of the cheroot-makers have already been transferred to one of the Richmond branches.

MR. ELLETT DECLINES.

Mr. Whittet Made Chairman of Assessment Committee.

met in the City Hall last night at 8 o'clock.

Mr. T. H. Ellett, who was elected chairman of the last meeting while absent from the city stated that he could not serve and offered his resignation, which was accepted but not before strong pressure was brought upon him to continue to lead the committee.

Mr. Robert Whittet, Jr., was elected to fill the vacancy, and Mr. W. A. Crenshaw was chosen sub-chairman.

The committee decided to report a resolution to the Council appropriating \$200 for incidental expenses in prosecuting the work of the department.

City Attorney Pollard was present and explained the manifold duties of the committee, in accordance with the State statute and the city ordinances.

The next meeting of the committee will be hed on June 18th, at which time a hearing will be granted to more than one hundred citizens against whom assessments have already been made.

Stock of Local Merchants. Stock of Local Merchants.

The past month in the custom house of this city was a record-breaker in the number and variety of importations, though the aggregate of receipts was but 80.00. Most of these imports were received here in bond via the Pennsylvania or the Chesapeake and Ohio Kailway from New York or Newport News, the duty being paid at this end. The imports come from all parts of the world and all save one invoice are consigned to Richmond merchants or manufacturers. Among the articles imported are such things as tobacco from Cuba, cigars, wires, oilve oil, chinaware, seeds, giasswire, cottons, buscuits and cakes, mineral water, radium, sauces and various other miscellaneous articles.

On the evening before the deduction on a streeppticon lecture will be given to make a streepptic on the matter of the programment of the public hall under the suspices of the league, by the mational field secretary of the organization of the contrast of conditions, original and as wrought by the Civic Improvement League in other places.

NO POLLUTION OF WATER, SAYS SUPT. BOLLING

The Committee on Water met last night, and the only matter of interest to the public which came up was the informal discussion of an editorial in another paper yesterday in reference to the alleged poliution of water in the canal from the camps around the works where the settling basin is being constructed. Superintendent Boiling authorized the statement that no such conditions exist, and that a part of the specifications of the contracts are that proper sanitary conditions shall be observed. He said further that the works were regularly inspected to see that this part of the specifications is carried out, and that there was absolutely no reason for any one to entertain an idea that the water is polluted from this source.
